

Drift — Decision Sprint

60 hours of co-assisted development. Learn to think out loud with the machine without losing your own voice.

F o r e p l a y · T r a i n i n g s · 6 0 h o u r s o v e r 6 w e e k s

Every module runs three tracks at once.

NARRATIVE

You stopped drafting alone. The machine became a thinking partner — one you could interrupt, correct and disagree with.

COGNITIVE

Drift = axis-aware co-thinking. Every prompt starts from one of the 5 Calm Magic axes (MAGIC/LOVE/CALM/OPEN/FREE) and stays legibly on it.

IDENTITY

From prompt-hoarder to axis-holder. You know which axis you're on and when to switch.

Why this matters

Reconnect to why you're outsourcing thinking in the first place.

"What kind of thinking do you not want to hand over?"

01. Non-Delegable List

10 min

Name what must stay yours.

Prompt: List 5 kinds of thinking you refuse to outsource to a machine. One line each.

Debrief: Trade lists with a partner. Ask: 'Would you defend theirs?'

02. Voice Print

15 min

Establish your own baseline before drift.

Prompt: Write 200 words on a topic you love. Do not edit.

Debrief: Save it. You'll compare against machine-assisted drafts later.

03. Companion Contract

10 min

Set the terms of the relationship.

Prompt: Fill in: 'When I work with the machine I promise to ___ and I refuse to ___.'

Debrief: Read aloud. Pin above your desk.

The reframe

See the machine as a mirror, not an oracle.

"What did the machine reflect back that you couldn't say yourself?"

01. Mirror Prompt

20 min

Use the machine to reflect, not answer.

Prompt: Feed a rough idea; ask the machine to say back only what it heard, in your voice. Iterate 3 rounds.

Debrief: Ask: 'On which round did it start sounding like you?'

02. Cognitive Handoff

15 min

Practice giving one clear cognitive task.

Prompt: Assign the machine ONE bounded task ('list contradictions in this doc'). Nothing else.

Debrief: Ask: 'Where did you resist giving up more? Why?'

03. Disagreement Drill

15 min

Learn to say no to a confident machine.

Prompt: Pick a plausible-but-wrong output. Push back with evidence in 3 sentences.

Debrief: Ask: 'When did the machine concede? When should it have?'

Organize complexity

Introduce the 5 Drift axes as a legible orientation system.

"Which axis is this conversation actually on?"

01. Axis Tagging

20 min

Learn to name the axis of every prompt.

Prompt: Take 10 prompts you've written this week. Tag each with MAGIC/LOVE/CALM/OPEN/FREE.

Debrief: Ask: *'Which axis is over-represented? Which is missing?'*

02. Single-Axis Run

30 min

Stay on one axis end-to-end.

Prompt: Do one 30-min work session staying strictly on OPEN (workflow/ontology).

Debrief: Ask: *'What tempted you to switch? What did you gain by staying?'*

03. Axis Handoff

15 min

Practice explicit axis switching.

Prompt: Move a conversation from MAGIC to CALM by announcing the switch out loud to the machine.

Debrief: Ask: *'Did the machine follow? Did YOU follow?'*

Pattern discovery

Discover your own drift patterns by looking at your history.

"What does my week of prompts say I actually believe?"

01. The Prompt Autopsy

25 min

Read your own history as an anthropologist.

Prompt: In pairs, read a partner's prompt history. Report back what you think they care about.

Debrief: Ask: 'What did they see that you couldn't?'

02. Missing Axis Sprint

20 min

Fill the axis you avoid.

Prompt: Do a 20-min session on the axis you've avoided this month.

Debrief: Ask: 'What made that axis feel forbidden?'

03. Silent Co-Draft

45 min

Draft with the machine without speaking to anyone else.

Prompt: 45 min silent co-drafting. Timer. No Slack, no email.

Debrief: Group debrief on cadence, not content.

Commitment

Ship one decision. Not one deck.

"What decision will you make this week that Drift helped shape?"

01. The One-Decision Memo

30 min

Compress the sprint into one page.

Prompt: Write a 1-page memo: context, options, decision, undo clause. Machine helps only with structure.

Debrief: Circulate. Get one 'agree' and one 'push-back' before shipping.

02. Machine-Free Sign-Off

15 min

The final commitment happens without the machine.

Prompt: Read your memo aloud without the machine present. Change what feels borrowed.

Debrief: Ask: 'What phrase did you cut?'

03. Cadence Contract

10 min

Set your co-thinking rhythm.

Prompt: Decide: which days do you drift with the machine? Which days do you draft alone?

Debrief: Post the calendar to the team.

How the arc unfolds.

01	Week 1 — Sovereignty Live · 8h + async · 6h	Love	<i>Companion Contract signed.</i>
02	Week 2 — Mirror Live · 6h + async · 6h	Magic	<i>First mirror-click screenshot.</i>
03	Week 3 — Axes Live · 6h + async · 6h	Calm	<i>Tagged prompt history.</i>
04	Week 4 — Patterns Live · 6h + async · 6h	Open	<i>Prompt autopsy report.</i>
05	Week 5 — Ship Live · 6h + async · 4h	Free	<i>One-decision memo shipped.</i>
06	Week 6 — Cadence Async · 6h	Free	<i>Co-thinking calendar published.</i>

COMMITMENT CONTRACT

"Which decision will you let Drift help you shape this month — and which will you keep entirely your own?"

This month I will drift with the machine on _____. I will keep _____ entirely my own. My co-thinking cadence is _____.

Witness — A colleague who reads your first memo before it ships.
