

Tune — Ecosystem Build

A 12-week embedded residency to move from a validated prototype to an orchestrated ecosystem the org can run without us.

F o r e c a s t · R e s i d e n c i e s · 1 2 w e e k s e m b e d d e d

Every module runs three tracks at once.

NARRATIVE

You stopped needing us. The ecosystem now runs on your team's baton.

COGNITIVE

Ecosystem = product + governance + rituals + second-chair. Every piece has an owner and a retirement date.

IDENTITY

From project team to system stewards.

Why this matters

Anchor on the humans who will run the ecosystem after us.

"Who is the person who will own this in 12 weeks?"

01. Owner Naming

90 min

Name owners on day one.

Prompt: Assign owner + backup for every piece of the ecosystem.

Debrief: Post to residency wall.

02. The Owner's Fear

240 min

Interview each owner.

Prompt: 30-min interview per owner: 'What are you afraid you'll be left holding?'

Debrief: Cluster fears. Address top 3 in week 2.

03. The Handoff Contract

120 min

Design the handoff before starting.

Prompt: Co-draft: what will be handed off, in what shape, on what date.

Debrief: Every owner signs.

The reframe

Reframe: an ecosystem is a set of rituals, not a set of features.

"Which rituals will keep this ecosystem alive after we leave?"

01. Ritual Inventory

120 min

Name every needed ritual.

Prompt: List: cadence, purpose, host, artifact, participants for each ritual.

Debrief: Present to leadership. Get pushback.

02. Ritual Cost

45 min

Cost each ritual in hours per month.

Prompt: For each ritual: total hours consumed per month.

Debrief: Sum. Ask: 'Can the org afford this?'

03. The Rituals Retirement

60 min

Kill 30% of them.

Prompt: Kill 30% of rituals. Justify each kill.

Debrief: Publish. Notice the relief.

Organize complexity

Introduce the governance ontology.

"Who decides what, on what cadence, with what evidence?"

01. RACI-lite

90 min

Simplest possible governance grid.

Prompt: For each decision type: responsible, accountable, informed. No consultation column.

Debrief: Publish. Get exec sign-off.

02. Cadence Map

120 min

Draw the org's decision cadence.

Prompt: Which decisions weekly, monthly, quarterly? On what evidence?

Debrief: Post next to RACI-lite.

03. The Constitution

240 min

1-page constitution for the ecosystem.

Prompt: Draft: purpose, boundary, decision protocol, retirement clause.

Debrief: All owners co-sign.

Pattern discovery

Let the ecosystem run — with us in the room but silent.

"What broke when we stayed silent?"

01. Silent Weeks

900 min

Weeks 8-10, we don't speak in meetings.

Prompt: Attend. Take notes. Do not speak. Log what broke.

Debrief: Weekly retro with the team — using notes only.

02. The Break-Fix Log

60 min

Log every break, every fix.

Prompt: Public log. Owner names the fix.

Debrief: Notice which breaks the team fixed themselves.

03. The First Retro Without Us

90 min

Attend but don't speak.

Prompt: Facilitator: internal team lead. We only take notes.

Debrief: Debrief privately with the lead.

Commitment

Exit. Cleanly. On the date.

"What did we hand over and what did we take with us?"

01. The Exit Ceremony

90 min

Formal, public, on the calendar.

Prompt: 90-min ceremony. Handoff of every piece.
Public celebration.

Debrief: Video the ceremony. Post.

02. The 30/60/90 Check-in

90 min

Book 3 lightweight check-ins.

Prompt: 30-min video call at 30, 60, 90 days post-exit.
Optional attendance for us.

Debrief: Log what changed.

03. The Second-Chair Certificate

30 min

Every owner gets one.

Prompt: Signed certificate: role, ecosystem, dates,
handoff artifact.

Debrief: Ceremony includes handing them out.

How the arc unfolds.

01	Week 1 — Owners 40h	Love	<i>Handoff contracts signed.</i>
02	Weeks 2-3 — Rituals 80h	Magic	<i>Ritual retirement doc.</i>
03	Weeks 4-5 — Governance 80h	Calm	<i>Constitution shipped.</i>
04	Weeks 6-10 — Silent build 200h	Open	<i>Break-fix log + team-led retro.</i>
05	Weeks 11-12 — Exit 80h	Free	<i>Exit ceremony + certificates.</i>

COMMITMENT CONTRACT

"What does the ecosystem look like when we're gone?"

On _____ the ecosystem will be owned by _____. Its constitution is _____. The 30/60/90 check-ins are booked for _____. The retirement clause triggers when _____.

Witness — The named steward of the ecosystem.
