

Tune — Founder Companion

Foreplay · Trainings · 60 hours over 6 weeks

60 hours of orchestrated autonomy. Move from co-assisted drafting to running a small ensemble of agents on your behalf.

The three journeys

Narrative. You stopped being the bottleneck. The ensemble drafts while you conduct.

Cognitive. Tune = orchestration ontology. Each agent has a role (voice, verifier, scribe, skeptic) and a bounded axis.

Identity. From soloist to conductor. From doing every note to shaping every phrase.

Curriculum by module

Module 1 — Week 1 — Chair

Live · 8h + async · 4h · Love — Why this matters

Outcome: Manifesto and chair claimed.

Intent: Reclaim the part of the work that must stay conducted, not delegated.

Prompt question: What is the taste that only you can hold?

Exercise	Time	Prompt	Debrief
Taste Inventory	15m	List 7 things that must be true of anything shipped in your name.	Read aloud. Notice which items surprise you.
The Conductor's Chair	5m	Sit in one designated chair. Only from this chair do you make orchestration decisions.	Debrief the felt difference between conducting and doing.
Ensemble Manifesto	15m	Draft a 3-line manifesto: purpose, boundary, promise.	Post above the conductor's chair.

Artifact: A conductor's chair with the manifesto posted above.

Module 2 — Week 2 — Cast

Live · 6h + async · 6h · Magic — The reframe

Outcome: 4-role cast list published.

Intent: See orchestration as composition, not automation.

Prompt question: What ensemble arrangement did you not know was possible?

Exercise	Time	Prompt	Debrief
Role Casting	20m	Cast 4 agents: voice, verifier, scribe, skeptic. One-sentence job description each.	Debate the skeptic's brief hardest. That's where quality lives.
Score Reading	25m	Take a past transcript. Color-code each turn by which role should have spoken.	Ask: 'Which role was silent when it should have played?'
Cadenza	15m	Run one 15-min segment where	Notice what the ensemble learns

		only the skeptic speaks.	when one voice is centered.
--	--	--------------------------	-----------------------------

Artifact: A cast-list of your ensemble. A color-coded transcript.

Module 3 — Week 3 — Score

Live · 8h + async · 6h · Calm — Organize complexity

Outcome: Hand-drawn score of one workflow.

Intent: Introduce orchestration ontology — the score itself.

Prompt question: What is the shape of the piece you're conducting?

Exercise	Time	Prompt	Debrief
The Score	40m	Bars = phases. Staves = roles. Notes = handoffs. Draw one project.	Ask: 'Where does the score have rests? Should it?'
Handoff Protocol	25m	Write 3 handoff templates: voice → verifier, scribe → skeptic, skeptic → voice.	Test one live. Ask: 'What broke? What held?'
Governance Line	15m	List 5 decisions only the conductor can make. Publish to the ensemble config.	Ask: 'Which of these could you delegate in 6 months?'

Artifact: A hand-drawn score. A governance-line document.

Module 4 — Week 4 — Surprise

Live · 4h + async · 10h · Open — Pattern discovery

Outcome: One-week surprise log.

Intent: Discover where the ensemble surprises you — good and bad.

Prompt question: What emerged that no single agent — and no single you — could have made alone?

Exercise	Time	Prompt	Debrief
Surprise Log	60m	For one week, log every output that surprised you (good or bad). One line each.	In group: cluster the surprises. Ask: 'Which want to become features?'
The Silent Skeptic	180m	Run 3 days with the skeptic silenced. Track quality shift.	Debrief: 'What did the skeptic protect that you didn't notice?'
Ensemble Retrospective	20m	Ask each role to write a 3-line self-assessment. Read them aloud.	Ask: 'Which self-assessment did you disagree with?'

Artifact: A surprise log. A retrospective document per role.

Module 5 — Week 5 — Baton

Live · 4h + async · 8h · Free — Commitment

Outcome: Conducted-only deliverable shipped.

Intent: Ship one thing the ensemble ran end-to-end. Under your baton.

Prompt question: What did the ensemble ship this month that you only conducted?

Exercise	Time	Prompt	Debrief
----------	------	--------	---------

The Baton Test	240m	Pick one small deliverable. You may only prompt, tune roles, and approve. No drafting.	Publish the deliverable with a byline: 'Conducted by ____'. Performed by ensemble.'
Cost of Conducting	30m	Log your minutes: prompting, tuning, approving. Nothing else.	Ask: 'Did the ensemble save time — or shift what your time was worth?'
Second-Chair Handoff	30m	Write a 1-page onboarding for the next conductor of your ensemble.	Have them run one segment under your baton.

Artifact: A conducted-only deliverable. A second-chair onboarding doc.

Module 6 — Week 6 — Handoff

Async · 6h · Free — Commitment

Outcome: Second-chair onboarding doc.

Intent: Ship one thing the ensemble ran end-to-end. Under your baton.

Prompt question: What did the ensemble ship this month that you only conducted?
