

The Rehearsal Arc

A facilitator's field guide — Trainings · Retreats · Residencies

Rehearse the shift before the stakes get real.

Nine offerings. Three tiers. Two coordinates.

Every session moves through the same 5 states — LOVE · MAGIC · CALM · OPEN · FREE — while running three simultaneous journeys: what people will remember, what they will learn, and who they will become.

NARRATIVE

*What is the story people
will tell tomorrow?*

Artefact

A quotable line.

COGNITIVE

*What is the model they
now hold in their
hands?*

Artefact

A diagram they can redraw from
memory.

IDENTITY

*Who do they now see
themselves becoming?*

Artefact

A first-person sentence starting
with 'I am someone who...'

LOVE

Why this matters

Intent — Anchor emotional resonance and the meaningful future.

Facilitator move — *Open a door — never a slide deck.*

MAGIC

The reframe

Intent — Surprise the pattern. Break the default lens.

Facilitator move — *Show the thing they didn't know was there.*

C A L M

Organize complexity

Intent — Introduce the framework. Reduce uncertainty.

Facilitator move — *Draw the map slowly. Name each region once.*

O P E N

Pattern discovery

Intent — Interactive exercise. Reflection made legible.

Facilitator move — *Get out of the way. Notice, don't teach.*

FREE

Commitment

Intent — Clear next step. One thing to try on Monday.

Facilitator move — *Ask for the smallest brave promise.*

CHAPTER IV

Foreplay — Trainings

Build the muscle before the stakes get real.

GLITCH — Clarity Reset

The official 65-hour Crewdle AI Formation. Rehearse the reframe until the team can do it without you in the room.

NARRATIVE

You walked in with a stack of AI tools and no clarity. You walk out with one shared reframe of what the org is actually being asked to become.

COGNITIVE

The 5-state Calm Magic ontology applied to AI adoption. Every meeting becomes a legible arc from resonance to commitment.

IDENTITY

From tool-picker to intention-designer. You stop asking 'which AI?' and start asking 'which future?'

One move per state

	L O V E	The Two Fears <i>Write two sentences on one card: 'I'm afraid AI will take ____' and 'I'm afraid AI will ask me to ____'.</i>	15 min	<i>I am someone whose fear can be spoken and stay welcome.</i>
	M A G I C	Tool-Free Fridge Test <i>Redesign one broken workflow without naming a single tool. Only verbs and outcomes.</i>	25 min	<i>I am someone who leads with intention before selection.</i>
	C A L M	The Uncertainty Map <i>Plot every open decision on a 2×2: reversible/irreversible × known/unknown.</i>	25 min	<i>I am someone who can name where uncertainty lives.</i>
	O P E N	Silent Wall <i>In silence, cluster all week's sticky notes. Only movement, no talking.</i>	20 min	<i>I am someone who can hold a room in productive silence.</i>
	F R E E	Smallest Brave Promise <i>One sentence: 'By Monday I will _____. My witness is _____.'</i>	10 min	<i>I am someone who ships a promise, not a plan.</i>

Drift — Decision Sprint

60 hours of co-assisted development. Learn to think out loud with the machine without losing your own voice.

NARRATIVE

You stopped drafting alone. The machine became a thinking partner — one you could interrupt, correct and disagree with.

COGNITIVE

Drift = axis-aware co-thinking. Every prompt starts from one of the 5 Calm Magic axes (MAGIC/LOVE/CALM/OPEN/FREE) and stays legibly on it.

IDENTITY

From prompt-hoarder to axis-holder. You know which axis you're on and when to switch.

One move per state

	L O V E	Non-Delegable List <i>List 5 kinds of thinking you refuse to outsource to a machine. One line each.</i>	10 min	<i>I am someone with a voice-print I recognize.</i>
	M A G I C	Mirror Prompt <i>Feed a rough idea; ask the machine to say back only what it heard, in your voice. Iterate 3 rounds.</i>	20 min	<i>I am someone who can disagree with a confident machine.</i>
	C A L M	Axis Tagging <i>Take 10 prompts you've written this week. Tag each with MAGIC/LOVE/CALM/OPEN/FREE.</i>	20 min	<i>I am someone who navigates axes, not prompts.</i>
	O P E N	The Prompt Autopsy <i>In pairs, read a partner's prompt history. Report back what you think they care about.</i>	25 min	<i>I am someone who is legible to myself.</i>
	F R E E	The One-Decision Memo <i>Write a 1-page memo: context, options, decision, undo clause. Machine helps only with structure.</i>	30 min	<i>I am someone who ships decisions, not drafts.</i>

Tune — Founder Companion

60 hours of orchestrated autonomy. Move from co-assisted drafting to running a small ensemble of agents on your behalf.

NARRATIVE

You stopped being the bottleneck. The ensemble drafts while you conduct.

COGNITIVE

Tune = orchestration ontology. Each agent has a role (voice, verifier, scribe, skeptic) and a bounded axis.

IDENTITY

From soloist to conductor. From doing every note to shaping every phrase.

One move per state

	LOVE	Taste Inventory <i>List 7 things that must be true of anything shipped in your name.</i>	15 min	<i>I am someone who conducts, not performs.</i>
	MAGIC	Role Casting <i>Cast 4 agents: voice, verifier, scribe, skeptic. One-sentence job description each.</i>	20 min	<i>I am someone who composes with agents.</i>
	CALM	The Score <i>Bars = phases. Staves = roles. Notes = handoffs. Draw one project.</i>	40 min	<i>I am someone who reads and writes scores.</i>
	OPEN	Surprise Log <i>For one week, log every output that surprised you (good or bad). One line each.</i>	60 min	<i>I am someone who studies my ensemble like a live system.</i>
	FREE	The Baton Test <i>Pick one small deliverable. You may only prompt, tune roles, and approve. No drafting.</i>	240 min	<i>I am someone who can hand my baton to someone else.</i>

CHAPTER V

Foresight — Retreats

Slow down long enough to see the shape of the next decade.

Think Like a Forest

A 3-day forest retreat that teaches leadership teams to sense in canopies, roots and mycelium instead of orgcharts.

NARRATIVE

You walked into a forest expecting a metaphor and left with a decision system.

COGNITIVE

Forest ontology: canopy (vision), trunk (structure), roots (values), mycelium (relational intelligence).

IDENTITY

From org-chart holder to canopy-reader.

One move per state

	L O V E	The Long Arrival <i>Walk 40 minutes in silence to the site. No phones.</i>	40 min	<i>I am someone who arrives slowly.</i>
	M A G I C	Canopy Mapping <i>Spend 30 min in one spot studying the canopy above. Sketch what you see.</i>	30 min	<i>I am someone who reads living systems.</i>
	C A L M	The Forest Blueprint <i>Draw: canopy (vision), trunks (functions), roots (values), mycelium (relational intelligence), deadwood (legacy).</i>	60 min	<i>I am someone who can draw my org as a living system.</i>
	O P E N	Sit Spot <i>Choose a spot. Sit for 60 min. Do not journal until the hour is up.</i>	60 min	<i>I am someone who lets the system speak first.</i>
	F R E E	The Descent Letter <i>Handwritten letter to open at 9am Monday. Seal it.</i>	30 min	<i>I am someone who honors what the forest told me.</i>

Stories of a Near Future

A 4-day writing retreat where leadership teams draft the 2030 they would rather have — and stress-test it against evidence.

NARRATIVE

You stopped forecasting and started writing. The 2030 you wrote is now a document your team can argue with.

COGNITIVE

Preferable-futures ontology: writing → evidence → back-cast → decision. Fiction as due diligence.

IDENTITY

From strategist to storyteller-with-receipts.

One move per state

	L O V E	The Beneficiary List <i>List 10 beneficiaries of your imagined 2030. Then 10 non-beneficiaries.</i>	20 min	<i>I am someone who writes futures with receipts.</i>
	M A G I C	Discontinuity Cards <i>Draw a random discontinuity card. Rewrite your dispatch integrating it.</i>	30 min	<i>I am someone who plans for weird.</i>
	C A L M	The Back-Cast <i>Given your 2030 dispatch, list the 5 milestones of 2028, 2027, 2026.</i>	40 min	<i>I am someone who back-casts before they forecast.</i>
	O P E N	Story Court <i>One team presents. Two teams cross-examine. One team defends.</i>	60 min	<i>I am someone who submits my future for cross-examination.</i>
	F R E E	The Story-to-Decision Bridge <i>Write: 'If our 2030 is true, then before ____ we must decide ____.'</i>	30 min	<i>I am someone whose stories become decisions.</i>

Relational Intelligence Summit

A 2-day summit where senior teams practice the muscle their org uses least — reading and repairing the relational field.

NARRATIVE

You realized the org's real bottleneck was relational, not technical.

COGNITIVE

Relational intelligence: field-reading, rupture-and-repair, brave dissent, boundary as clarity.

IDENTITY

From performance manager to field reader.

One move per state

	L O V E	Safety Signals <i>Each person: 3 signals of safety and 3 signals of danger in a room.</i>	15 min	<i>I am someone who names safety before I demand truth.</i>
	M A G I C	Field Read <i>One volunteer narrates the room's felt sense for 3 min. Others correct.</i>	20 min	<i>I am someone who reads before I react.</i>
	C A L M	The Four Moves <i>Practice each move in scripted pairs.</i>	45 min	<i>I am someone who uses the four moves in real meetings.</i>
	O P E N	Tension Bring-Along <i>Volunteer one team brings a real tension. Others hold field.</i>	45 min	<i>I am someone who brings tensions into rooms.</i>
	F R E E	The Repair Appointment <i>Send the calendar invite before you leave the room.</i>	10 min	<i>I am someone who schedules the repair I owe.</i>

CHAPTER VI

Forecast — Residencies

Turn the vision into measurable, working proof.

GLITCH — Diagnostic Sprint

A 3-week embedded residency to diagnose where the real bottleneck lives before anyone writes code.

NARRATIVE

You stopped building the wrong thing. The three weeks of diagnosis saved six months of shipping.

COGNITIVE

Diagnosis > prototype > production. Every symptom is mapped to a root before any solution is drawn.

IDENTITY

From feature-shipper to root-cause diagnostician.

One move per state

LOVE	Stakeholder Fears <i>One 30-min interview each. Only question: 'What are you afraid we'll find?'</i>	150 min	<i>I am someone who names fear before I fix.</i>
MAGIC	Symptom Wall <i>One week of Slack, tickets, meeting notes. Every complaint → sticky note.</i>	240 min	<i>I am someone who resists solving the wrong problem.</i>
CALM	The Grid Score <i>For each cell: 1-5 score with 1-line evidence.</i>	180 min	<i>I am someone who diagnoses on a grid.</i>
OPEN	The Findings Read-Out <i>90-min read-out. 30 min findings, 60 min pushback.</i>	90 min	<i>I am someone who publishes a diagnostic in public.</i>
FREE	The One Recommendation <i>One page: recommendation, rationale, cost, undo condition.</i>	90 min	<i>I am someone who ships one page, not fifty.</i>

Drift — Prototype Residency

An 8-week embedded residency to build the working prototype that proves — or breaks — the diagnostic bet.

NARRATIVE

You stopped debating the roadmap. The prototype settled the argument in six weeks.

COGNITIVE

Prototypes Garden: structured foresight scenarios wired to real data, real users, real ROI.

IDENTITY

From meeting-holder to prototype-holder.

One move per state

	L O V E	Bet Recital <i>Kickoff opens by reading the diagnostic bet verbatim.</i>	15 min	<i>I am someone who reads the why before the how.</i>
	M A G I C	Evidence Sketch <i>Draw what a proof-image would look like. What screen? What chart? What quote?</i>	60 min	<i>I am someone who ships evidence before product.</i>
	C A L M	Garden Bed Assignment <i>Pick: signal-testing, workflow, ontology, business-model, ecosystem. Justify.</i>	60 min	<i>I am someone who plants prototypes in named beds.</i>
	O P E N	The Weekly Demo <i>Anyone in the org can attend. Log surprises.</i>	45 min	<i>I am someone who demos in public and logs failure.</i>
	F R E E	The Verdict Meeting <i>90-min meeting. Verdict: kill / extend / productionize. In writing.</i>	90 min	<i>I am someone who ships verdicts.</i>

Tune — Ecosystem Build

A 12-week embedded residency to move from a validated prototype to an orchestrated ecosystem the org can run without us.

NARRATIVE

You stopped needing us. The ecosystem now runs on your team's baton.

COGNITIVE

Ecosystem = product + governance + rituals + second-chair. Every piece has an owner and a retirement date.

IDENTITY

From project team to system stewards.

Move slowly. Name what you see. Ask for the smallest brave promise.

LOVE — Open a door — never a slide deck.

MAGIC — Show the thing they didn't know was there.

CALM — Draw the map slowly. Name each region once.

OPEN — Get out of the way. Notice, don't teach.

FREE — Ask for the smallest brave promise.

C o m m i t m e n t C o n t r a c t

The smallest brave promise.

By _____ I will _____.

My witness is _____.

If by day 30 _____ is true, I will stop and re-open the question.

Rehearse. Then perform.
