

Drift — Decision Sprint

Foreplay · Trainings · 60 hours over 6 weeks

60 hours of co-assisted development. Learn to think out loud with the machine without losing your own voice.

The three journeys

Narrative. You stopped drafting alone. The machine became a thinking partner — one you could interrupt, correct and disagree with.

Cognitive. Drift = axis-aware co-thinking. Every prompt starts from one of the 5 Calm Magic axes (MAGIC/LOVE/CALM/OPEN/FREE) and stays legibly on it.

Identity. From prompt-hoarder to axis-holder. You know which axis you're on and when to switch.

Curriculum by module

Module 1 — Week 1 — Sovereignty

Live · 8h + async · 6h · Love — Why this matters

Outcome: Companion Contract signed.

Intent: Reconnect to why you're outsourcing thinking in the first place.

Prompt question: What kind of thinking do you not want to hand over?

Exercise	Time	Prompt	Debrief
Non-Delegable List	10m	List 5 kinds of thinking you refuse to outsource to a machine. One line each.	Trade lists with a partner. Ask: 'Would you defend theirs?'
Voice Print	15m	Write 200 words on a topic you love. Do not edit.	Save it. You'll compare against machine-assisted drafts later.
Companion Contract	10m	Fill in: 'When I work with the machine I promise to ____ and I refuse to ____.'	Read aloud. Pin above your desk.

Artifact: A signed Companion Contract on the wall.

Module 2 — Week 2 — Mirror

Live · 6h + async · 6h · Magic — The reframe

Outcome: First mirror-click screenshot.

Intent: See the machine as a mirror, not an oracle.

Prompt question: What did the machine reflect back that you couldn't say yourself?

Exercise	Time	Prompt	Debrief
Mirror Prompt	20m	Feed a rough idea; ask the machine to say back only what it heard, in your voice. Iterate 3 rounds.	Ask: 'On which round did it start sounding like you?'
Cognitive	15m	Assign the machine ONE bounded	Ask: 'Where did you resist giving

Handoff		task ('list contradictions in this doc'). Nothing else.	up more? Why?'
Disagreement Drill	15m	Pick a plausible-but-wrong output. Push back with evidence in 3 sentences.	Ask: 'When did the machine concede? When should it have?'

Artifact: A screenshot of the round when the mirror clicked.

Module 3 — Week 3 — Axes

Live · 6h + async · 6h · Calm — Organize complexity

Outcome: Tagged prompt history.

Intent: Introduce the 5 Drift axes as a legible orientation system.

Prompt question: Which axis is this conversation actually on?

Exercise	Time	Prompt	Debrief
Axis Tagging	20m	Take 10 prompts you've written this week. Tag each with MAGIC/LOVE/CALM/OPEN/FREE.	Ask: 'Which axis is over-represented? Which is missing?'
Single-Axis Run	30m	Do one 30-min work session staying strictly on OPEN (workflow/ontology).	Ask: 'What tempted you to switch? What did you gain by staying?'
Axis Handoff	15m	Move a conversation from MAGIC to CALM by announcing the switch out loud to the machine.	Ask: 'Did the machine follow? Did YOU follow?'

Artifact: A tagged prompt history. Wall chart of axis distribution.

Module 4 — Week 4 — Patterns

Live · 6h + async · 6h · Open — Pattern discovery

Outcome: Prompt autopsy report.

Intent: Discover your own drift patterns by looking at your history.

Prompt question: What does my week of prompts say I actually believe?

Exercise	Time	Prompt	Debrief
The Prompt Autopsy	25m	In pairs, read a partner's prompt history. Report back what you think they care about.	Ask: 'What did they see that you couldn't?'
Missing Axis Sprint	20m	Do a 20-min session on the axis you've avoided this month.	Ask: 'What made that axis feel forbidden?'
Silent Co-Draft	45m	45 min silent co-drafting. Timer. No Slack, no email.	Group debrief on cadence, not content.

Artifact: An axis distribution chart. A silent co-draft artifact.

Module 5 — Week 5 — Ship

Live · 6h + async · 4h · Free — Commitment

Outcome: One-decision memo shipped.

Intent: Ship one decision. Not one deck.

Prompt question: What decision will you make this week that Drift helped shape?

Exercise	Time	Prompt	Debrief
The One-Decision Memo	30m	Write a 1-page memo: context, options, decision, undo clause. Machine helps only with structure.	Circulate. Get one 'agree' and one 'push-back' before shipping.
Machine-Free Sign-Off	15m	Read your memo aloud without the machine present. Change what feels borrowed.	Ask: 'What phrase did you cut?'
Cadence Contract	10m	Decide: which days do you drift with the machine? Which days do you draft alone?	Post the calendar to the team.

Artifact: A one-page decision memo. A published co-thinking calendar.

Module 6 — Week 6 — Cadence

Async · 6h · Free — Commitment

Outcome: Co-thinking calendar published.

Intent: Ship one decision. Not one deck.

Prompt question: What decision will you make this week that Drift helped shape?

Exercise	Time	Prompt	Debrief
The One-Decision Memo	30m	Write a 1-page memo: context, options, decision, undo clause. Machine helps only with structure.	Circulate. Get one 'agree' and one 'push-back' before shipping.
Machine-Free Sign-Off	15m	Read your memo aloud without the machine present. Change what feels borrowed.	Ask: 'What phrase did you cut?'
Cadence Contract	10m	Decide: which days do you drift with the machine? Which days do you draft alone?	Post the calendar to the team.

Artifact: A one-page decision memo. A published co-thinking calendar.

Commitment contract

Which decision will you let Drift help you shape this month — and which will you keep entirely your own?

This month I will drift with the machine on _____. I will keep _____ entirely my own.

My co-thinking cadence is _____.

Witness — A colleague who reads your first memo before it ships.
